

# FIGHT FASCISM WEAR A MASK

US politicians are **pushing mask bans**, driven by a corporate agenda which wants to **surveil us, deter us from protesting genocide and empire**, and get us back to work and shopping – **but the price is our health.**

US mask bans **originated in the 1840s** to suppress social protest, and they will be used to **target BIPOC people, disabled people and pro-Palestine demonstrators.**

We must **visibly fight this attack** on our bodily autonomy, our health, and our privacy by **wearing a mask in public**, and **requiring N95 masks at protests & community events.**

**Tell electeds NO MASK BANS.** These same politicians and corporate actors have been **minimizing covid's ongoing harms** for short-term economic gains, **but we keep us safe.**
